PROFESSIONAL EXPERIENCE

Technoly

Berlin, Germany

01/09/2022 - present

- *Front-end developer*

- Sole maintainer of the company's internal B2B administration platform, owning the full product lifecycle and designing scalable, maintainable architecture.
- Led development of the company's transportation application, mentoring a junior engineer, conducting code reviews, and contributing to technical planning and delivery.
- Recognized for TypeScript expertise through self-directed learning, collaborating cross-functionally to resolve complex issues and establish best practices.

React | TypeScript | MUI | SCSS | Emotion | TanStack | Web Components

AllMyHomes

Berlin, Germany

01/05/2022 - 17/07/2022

- *Front-end developer*

- Maintained a micro-frontend for the “property basket” feature in an online housing marketplace, contributing bug fixes and incremental improvements in a production environment.
- Migrated three repositories from Angular 12 to 14, helping transition from a multi-repo setup to a more efficient mono-repo architecture.
- Assisted with the migration to Keycloak authentication, supporting improved security and standardized authentication flows.

Angular | TypeScript | Angular Material | RxJs | Storybook | BackStage | Jest | SCSS

OPEN SOURCE

TanStack Form

07/03/2025 - present

975,000 downloads/week

- *Maintainer*

- Contributed core features including field and form listeners, custom meta, and submit meta enhancing extensibility and developer experience across major frontend frameworks.
- Supported the project through its transition from alpha to V1 and currently contributing to the v2 roadmap.

TanStack AI

08/09/2025 - present

12,000 downloads/week

- *Maintainer*

- Integrated Ollama models into TanStack AI, expanding the platform with support for 214 models spanning multiple model families and model types.

TanStack Devtools

25/07/2025 - present

360,000 downloads/week

- *Maintainer*

- Contributed the initial TanStack Devtools documentation, as well as features such as split panel, and the theme redesign.
- Designed and implemented TanStack Form Devtools end-to-end, including UI, integration points, and overall developer experience.
- Currently collaborating on the TanStack A11y Devtools plugin to improve web accessibility.

MUI

- *Contributor*

01/05/2024 - present

- Contributed the Slot and SlotProps migration for the SpeedDial, Rating, SnackBar and BackDrop components.
